REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The instant invention claims pigment pseudoparticles and a method and apparatus to make such particles.

The closest prior art references that relate to the claimed invention are Bohach (6,908,675), Linde(6,132,505), Dorfel (4,310,483), Krockert (5,199,986) and Luginsland (3,660,129). The closest prior art teaches that it is known in the art to agglomerate particles. However, the prior art does not teach or fairly suggest the instant invention wherein the specific method steps, structural elements of pseudoparticles and of apparatus are claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
